SEGO: Bright, Quick, Modular

Illuminate your displays with SEGO's powerful **LEDs**, delivering even, stunning backlit graphics. With **a tool-free assembly system** and compact, wheeled bags for transport, SEGO ensures **quick setups** and maximum mobility. Its **modular design** allows endless customization, adapting to any event or space for a truly impactful presentation.

01

Simply click the vertical onto the SEGO foot by pushing it down onto the shaft.

02

Slide the horizontal into the vertical from the front opening.

03

Now push down the latch.

04

Finished!

Modular

Combine SEGO frames to build corners - connect different heights - just as you need. You can also place shelves and monitors on SEGO frames with the easy-to-use accessory.

SEGO

- + **Durable Frames:** Modular aluminum, built to last.
- + **Compact Fabrics:** Lightweight, easy to transport and replace.
- + **Seamless Printing:** Vibrant, premium backlit graphics.
- + **Tool-Free Assembly:** Quick and independent setup.
- + **Easy Customization:** Multiple sizes and configurations available.
- + **Complete Package:** Frames, accessories, and cases included.

Other brands

- **Low Durability:** Substandard materials lead to quicker wear and less reliability.
- **Bulky Materials:** Heavy parts make transport and setup time-consuming.
- **Average Printing:** Colors and graphics lack sharpness, reducing visual impact.
- **Complex Assembly:** Requires tools and extra labor, increasing costs.
- **Limited Options:** Few sizes and configurations restrict customization.
- **Few Accessories:** Limited add-ons reduce personalization and flexibility.

SEGO 8' H Modular Lightbox 3.3×8' (100×240 cm)

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag
Lighting	OSRAM LED

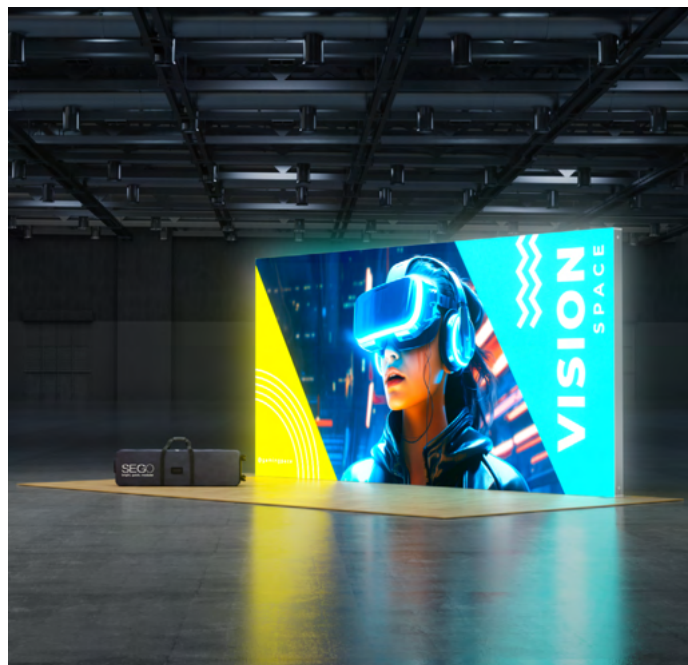

SEGO 8' H Modular Lightbox 6.5×8' (200×240 cm)

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag
Lighting	OSRAM LED

SEGO 8' H Modular Lightbox 10×8' (300×240 cm)

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag
Lighting	OSRAM LED

SEGO 8' H Modular Lightbox 16.5×8' (500×240 cm)

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag
Lighting	OSRAM LED

SEGO 8' H Modular Lightbox 20×8' (600×240 cm)

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag
Lighting	OSRAM LED

SEGO Battery Counter Lightbox 3.3×3.3' (100×100 cm)

Battery	24V Li-ion (50Ah, 1110Wh)
Operation	Up to 24 hours on a single charge
Charging Time	Fully recharges in 10 hours
Construction	Aluminum frame with plastic components
Includes	Countertop, profiles, transformer, battery, cables, transportation bag
Lighting	OSRAM LED

SEGO Counter Lightbox 3.3×3.3' (100×100 cm)

Power Source	Standard plug-in functionality
Construction	Aluminum frame with plastic components
Includes	Countertop, profiles, transformer, cables, transportation bag
Lighting	OSRAM LED

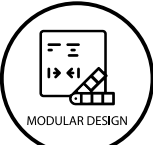

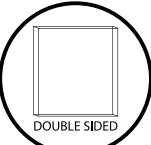

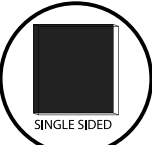

SEGO Bridge/Arch

Material	SEGO Backlit Graphic (Single or Double-sided, depends on the set)
Finishing	Silicone beading sewn onto edge of graphic
Construction	Aluminum frame with plastic components
Includes	Horizontal and vertical profiles, mid pole, feet, transformer, cables, transportation bag, bridge connector (4), bridge middle support (2)
Lighting	OSRAM LED

06 SEGO Accessories

Bridge Connector

Weight 0.150 lbs

Dimensions 1 × 10 × 5 in

Designed to link two SEGO lightboxes, creating a bridge structure between them. This accessory enables the formation of archways or the linking of separate stands, expanding configuration and design possibilities for exhibition setups.

Usage Note: For optimal stability, it is recommended to use the Bridge Connector in conjunction with other SEGO accessories, such as bridge reinforcements, following the manufacturer's instructions.

Bridge Connector for 2&3M

Weight 0.22 lbs

Dimensions 11 × 3.5 × 0.5 in

The Bridge Connector is an essential accessory designed to link two SEGO lightboxes, creating a bridge structure between them. This component is compatible with both 2-meter and 3-meter wide SEGO lightbox panels, allowing for versatile configurations in exhibition and display setups.

Usage Note: For optimal stability, it is recommended to use the Bridge Connector in conjunction with other SEGO accessories, such as bridge reinforcements, following the manufacturer's instructions.

Bridge Middle Support

Weight 0.5 lbs

Dimensions 20 × 4 × 1 in

The Bridge Middle Support is designed to reinforce SEGO modular lightboxes, providing additional rigidity at connection points between frames and horizontal elements.

Door Kit

Weight 17 lbs

Dimensions 57 × 6 × 3 in

The Door Kit is designed to integrate seamlessly with SEGO modular lightboxes, providing convenient access to the internal space of the structure. This accessory is ideal for creating concealed storage areas or technical compartments within exhibition stands.

Compatible with various SEGO lightbox configurations, including 10×10, 20×10, 20×20 ft models and others. Provides organized storage while maintaining the clean, professional appearance of the display.

Straight Connector

Weight 0.08 lbs

Dimensions 3 × 1.5 × 1.5 in

Straight Connector is an accessory designed to join two SEGO modular lightboxes into a single straight structure. It provides a strong and stable connection, enabling the creation of longer and continuous display stands.

Hanging Pole for Shelf Kit

Weight 0.2 lbs

Dimensions 9.5 × 3 × 1 in

The Hanging Pole is designed to be mounted beneath the shelf in SEGO modular lightboxes, allowing items to be displayed on hangers. This accessory enhances the functionality of the setup by providing additional space for showcasing products.

High-Low Connector

Weight 0.035 lbs
Dimensions 5.25 x 2 x 0.5 in

High-Low Connector is a specialized component designed to connect SEGO modular lightboxes at varying height levels. It enables the creation of stepped structures, providing a smooth transition between sections of different heights and giving the display a dynamic and appealing appearance. Ideal for creating **multi-level displays**, exhibition stands, and other structures requiring height variation.

L Connector Outside

Weight 0.075 lbs
Dimensions 5.25 x 5.25 x 1 in

The L Connector Outside is a plastic accessory designed to connect two SEGO modular lightboxes at an external 90-degree angle. It enables the creation of corner structures, expanding configuration and design possibilities for exhibition setups. Allows the creation of various **corner structures**, adapting to specific event or exhibition needs.

H Connector

Weight 0.2 lbs
Dimensions 6.5 x 2 x 0.5 in

The H Connector is designed for installation at the vertical junction of a frame, enabling the adjacent lightbox to be mounted at a higher level. This component allows the lightbox to be elevated by 1.5 times the standard height, offering creative and functional display solutions.

Stability: When paired with High-Low connectors, provides a reliable and secure structural connection.

Stacking Connector

Weight	0.21 lbs
Dimensions	12.1 × 1.5 × 0.5 in

The Stacking Connector is designed to join two vertical frames of SEGO lightboxes, allowing one lightbox to be stacked on top of another. This component is essential for creating tall and multi-level display setups.

Shelf

Weight	8 lbs
Dimensions	42 × 16 × 3 in

The Shelf for SEGO is an accessory designed to integrate seamlessly with SEGO modular lightboxes, expanding their functionality. It is ideal for displaying products, promotional materials, or exhibits while complementing the overall design of the stand. Suitable for items weighing up to 5 kg (11 lbs) per shelf.

Monitor Bracket

Weight	8.7 lbs
Dimensions	41 × 12 × 4 in

Monitor Bracket is an accessory designed to integrate a monitor with SEGO modular lightboxes, enabling the display of dynamic content and enhancing audience engagement at exhibitions and presentations. Suitable for monitors up to 40 inches in size and weighing up to 25 lbs (11.3 kg).

L Connector Inside

Weight	0.055 lbs
Dimensions	5.25 × 5.25 × 1 in

The L Connector Inside is a plastic accessory designed to connect two SEGO modular lightboxes at an internal 90-degree angle. It is used to create corner structures, enhancing the versatility of exhibition stand designs.

Foot Half Left

Weight 1 lbs
Dimensions 10.5 × 3.5 × 6.5 in

The Foot Half Left is designed to provide stability for SEGO modular lightboxes on one side and is also utilized for creating corner connections, offering flexibility for various configurations.

Foot Half Right

Weight 1 lbs
Dimensions 10.5 × 3.5 × 6.5 in

The Foot Half Right is designed to provide stability for SEGO modular lightboxes on one side and is also utilized for creating corner connections, making it a versatile accessory for various configurations.

Mini Foot

Weight 0.06 lbs
Dimensions 5 × 1.5 × 2 in

The Mini Foot is specifically designed for corner connections in SEGO modular lightboxes where standard feet cannot be used. While it does not provide support against tipping or shifting, it ensures that the lightbox remains at the same height as other sections with standard feet.

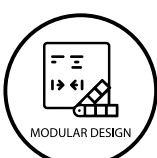

Extension Cable 5m

Weight 0.7 lbs
Dimensions 7 × 3.5 × 2.5 in

Extension Cable 5m is a 5-meter long extension cord designed to increase the distance between a power source and connected devices. It provides flexibility in equipment placement, especially in situations where the standard cable length is insufficient.

07 SEGO Spare Parts

Bridge handle for HP

Weight 0.035 lbs
